ArcGIS Online Map/Story Map

Create a story map showing Maryland's Higher Education facilities.

1. Login to ArcGIS Online and Click on Map
2. Gather Data at Maryland's Open Data GIS Data Catalog .

- Specifically get Maryland Education Facilities - Higher Education layers and Maryland State Mask.
- For each layer copy their GeoService API URL

- Load the layers on to the ArcGIS Online map

1. Click the Add button
2. Select Add Layer from Web
3. Select An ArcGIS Server Web Service
4. Paste the copied GeoService API URL
5. Remove the text "query" and everything after it
6. Click Add Layer

7. Change the symbols and edit the pop-up windows.
8. Now break the map into two separate maps one for two year schools and one for four year schools.
9. Create a single story map for these two maps
1. You do this through the Share button

What to turn in:

1. Make the map and application public, then email the URL to the instructor
