The County of Napa is seeking an experienced professional to support the enterprise GIS and Accela Automation permitting solutions, integrate these applications across multiple systems and technologies including SQL Server and SQL Server Reporting Services and to develop custom and off-the-shelf web and mobile GIS applications.

The ideal candidate will be well versed in both GIS and Accela. However, candidates with experience in GIS or Accela that have the experience, knowledge, skills and abilities to learn the other technology are encouraged to apply.

For full details, look for Information Systems Specialist II – GIS/Accela on the Napa County Website - http://www.countyofnapa.org/JobOpportunities/ .
